

# Colour Change

# 3 Simple steps

## Remote to product

Follow the guide below to set up your colour change installation.

### Products

What products do you want?

You will need cable to connect your products to your drivers

### Drivers

You will need at least one driver per zone, dependant on how many products you would like to install within that zone.

Are you using an RF remote, DMX or DALI control system?

What wattage driver do you need to power your products?

If you want to colour cycle across multiple zones we recommend using power repeaters or for larger projects use DMX drivers.

### Remotes

How many zones / rooms do you need?

Which remote covers the number of zones you need?

Is a DMX control system already in place or do you need more than 8 zones? (Use a DMX control system in this case)

It is not advised to put RGB & RGBW products in the same zone, as the colours will not always match.

## 1 Choose your product

### Constant current products

### Constant voltage product

## 2 Choose control method and driver

### Constant current 75W drivers

75W RF, DMX  
and DALI drivers  
See page 292

### Constant voltage 24V 100W drivers

100W RF, DMX  
and DALI drivers  
See page 292

### Constant Voltage 24V 200W drivers

200W RF, DMX  
and DALI drivers  
See page 292

## 3 Choose your controller (RF only)

Wall mounted

**CCWALLRFW / CCWALLRFB**

Zones 1 - 4

Page 290

Hand held

**CCREMOTEB**

Zones 1 - 4

Page 290

Phone App

**CollingwoodRGBW App**

Zones 1 - 8

Page 291

**CCRFCNVWIFI**

Page 291

# Zones

## Remotes

A zone can cover any space you choose. They are often assigned to rooms so that you can have different colour settings for each room and be able to adjust them completely independently from one another using your remote control. For example...

Remember you can assign any room to any zone number

Once you have decided how many zones you require, you will need to select a remote that is capable of covering that number of zones. You are able to use multiple remotes as long as they are all capable of covering the number of zones you have.

**Wall mounted remote control - CCWALLRFW / CCWALLRFB - 1-4 zones**

**Hand held remote control - CCREMOTEB - 1-4 zones**

**CollingwoodRGBW app - with CCRFCONVWIFI - 1-8 zones**

Zone 1 / 1 Room

Zone 2 / 2 Rooms

Zone 3 / 3 Rooms

Zone 4 / 4 Rooms

### CCWALLRFW / CCWALLRFB

Wall mounted RGBW remote control

Controlling Collingwood Lighting's RGB & RGBW ranges could not be easier with this wall mounted remote control. Using radio frequency (RF) removes the need to connect a signal cable to the controller for a cleaner and quicker installation. By simply touching the screen, select solid colours or start a cycle to change the atmosphere. Colours can also be dimmed by holding down the colour button. Select up to 4 zones to give individuality to each room.

**Note:** The CCWALLRF requires 240V AC supply.

### CCREMOTEB

Handheld remote control

Controlling RGB & RGBW lights could not be easier with this remote control. Using RF removes the need to connect a signal cable to the controller for a cleaner and quicker installation. Select solid colours or start a colour changing cycle to create the perfect atmosphere. Colours can also be dimmed by holding down the colour button. From just one remote control you can select up to 4 different rooms and change the colours individually to suit. A maximum of 8 remote controls can be used and programmed to store your favourite colours.

**Note:** Requires 3 x AAA batteries (not included)

Bedroom 2

Zone 5

Garden

Zone 6

Dining room

Zone 7

Stairs / Hallway

Zone 8

If you require more than 8 zones you will need to use a DMX control system

Zone 5 / 5 Rooms

Zone 6 / 6 Rooms

Zone 7 / 7 Rooms

Zone 8 / 8 Rooms

## CollingwoodRGBW App

iPhone, iPad & Android app for wireless control

Control RGB & RGBW products with a smart device for up to 8 zones. By simply touching the screen, select solid colours, start a cycle or control lights via a sound to light option. The app can be downloaded for free on Android and iOS.

**Note:** Use in conjunction with CCRFCNVWIFI

## CCRFCNVWIFI

WiFi to RF converter

Controlling RGB & RGBW products with a phone, computer or tablet could not be easier with the CCRFCNVWIFI. Simply add this unit into your Collingwood Lighting colour change installation and select millions of colours in comfort. Using the CollingwoodRGBW app simply connect directly to the CCRFCNVWIFI or via your own WiFi.

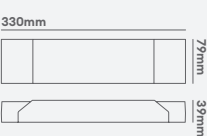

# Drivers

## Which one and what power supply?

Choose the driver that is required for your installation.

|  | RF drivers   | DMX drivers  | DALI drivers   |   |
|--|--|--|--|---|
| Which driver type do you need?                             | RF drivers allow wireless control from a hand-held remote controller, a wall mounted touch panel or a phone app via the Wi-Fi converter. A driver can be paired with up to 8 individual remotes and each remote can control multiple drivers in up to 8 zones. | DMX allows for wired control of up to 128 different zones, and multiple drivers can be assigned to each zone to keep the lights perfectly in sync. These drivers also support RDM for more advanced control and management with RDM-enabled controllers. | Use a DALI driver for integration with an existing DALI control system. These drivers allow for up to 16 RGBW zones or up to 64 single-colour zones on a standard DALI system. |   |
| 75W Driver<br>for all RGBW products<br>excluding LED Strip | <br>CCDRV75RF  | <br>CCDRV75DMX   | <br>CCDRV75DALI   |   |
| 100W Driver<br>For LED Strip only                          | <br>CCDRV100RF  | <br>CCDRV100DMX   | <br>CCDRV100DALI   |  |
| 200W Driver<br>For LED Strip only                          | <br>CCDRV200RF  | <br>CCDRV200DMX   | <br>CCDRV200DALI   |  |

If you want to colour cycle across multiple zones we recommend using power repeaters or for larger projects use DMX drivers.

## Constant current switchable mA drivers

All our 75W constant current drivers are mA switchable, giving you 16 options to choose from, 250mA - 1500mA

Drive current mA switches

## Calculate how many drivers you need for the products you have

Must have at least one driver per zone. Can have multiple drivers per zone to get more products within the zone.

### 75W Constant current drivers

| Product code | Product family | Max products per 75W driver | Drive current mA setting |
|--------------|----------------|-----------------------------|--------------------------|
| GL016RGBW    | Ground Light   | 13                          | 350mA                    |
| GL090RGBW    | Ground Light   | 4                           | 350mA                    |
| GLTXS119RGBW | Ground Light   | 4                           | 300mA                    |
| GLTXS147RGBW | Ground Light   | 2                           | 300mA                    |
| GLTXS165RGBW | Ground Light   | 1                           | 300mA                    |
| GLTXS193RGBW | Ground Light   | 3                           | 900mA                    |
| GLTXS223RGBW | Ground Light   | 1                           | 600mA                    |
| FOUX167RGBW  | Ground Light   | 1                           | 600mA                    |
| UL010RGBW    | Pond Light     | 13                          | 350mA                    |
| UL030RGBW    | Pond Light     | 4                           | 350mA                    |
| WL070RGBW    | Wall Light     | 1                           | 350mA                    |

### 100W Constant voltage drivers

| Product code | Product family | Max metre length per 100W driver |
|--------------|----------------|----------------------------------|
| LSR05        | RGBW Strip     | 6m                               |

### 200W Constant voltage drivers

| Product code | Product family | Max metre length per 200W driver |
|--------------|----------------|----------------------------------|
| LSR05        | RGBW Strip     | 13m                              |

## Cable run guidance, from controller to products

### 350mA RGBW products

From power repeater to 350mA product when using **0.5mm cable**, the maximum distance cable run is **50m**

From power repeater to 350mA product when using **0.75mm cable**, the maximum distance cable run is **75m**

From power repeater to 350mA product when using **1.0mm cable**, the maximum distance cable run is **100m**

From power repeater to 350mA product when using **1.5mm cable**, the maximum distance cable run is **150m**

### 24V RGBW strip

From controller to strip when using **0.75mm cable**, the maximum distance cable run is **20m**

From controller to strip when using **1.5mm cable**, the maximum distance cable run is **40m**

# Power repeaters

## Which one and how many?

Only required  
for RF colour  
cycling

If you are using RF control and you need several different circuits to colour cycle together, you can use power repeaters to extend the output of the driver.

### For all constant current products use the PR3011

#### PR3011 - 350mA RGB & RGBW Power repeater

A 350mA power supply for the RGB & RGBW product range. Simply wire up to 100 PR3011 to a driver for a quick and simple colour change installation, giving you the ability to have as many as 600 luminaires per zone.

### Calculate how many PR3011's you need for the products you have

**NOTE:** Tilt and Fountain lights are not suitable with PR3011

| Product code | Product family | Max. per PR3011 |
|--------------|----------------|-----------------|
| GL016RGBW    | Ground Light   | 6               |
| GL090RGBW    | Ground Light   | 2               |
| UL010RGBW    | Pond Light     | 6               |
| UL030RGBW    | Pond Light     | 2               |
| WL070RGBW    | Wall Light     | 1               |

### For all constant voltage products use the PR3002

#### PR3002 - 24V RGB & RGBW Power repeater

A 24V power supply for the strip product range. Simply wire up to 100 to a driver for a quick and simple colour change installation, giving you the ability to have as many as 1000 metres of LED strip per zone.

### Calculate how many PR3002's you need for the products you have

**LSR05 (RGBW strip) - Bespoke lengths available**

| Length of strip per power repeater | Wattage driver needed | Product (driver) |
|------------------------------------|-----------------------|------------------|
| Up to 2m per PR3002                | 60W                   | LSD6024          |
| Up to 5m per PR3002                | 120W                  | LSD12024         |
| Up to 10m per PR3002               | 150W                  | PSIP15024        |

**!** For all strip, you can put up to 5m on one circuit per PR3002, but for 5-10m you will need to put the strip on two circuits per PR3002 (see product instructions).

**!** Don't forget you'll need 300mm of CF505RGBW cable for every power repeater you use.

### Don't forget your 24V driver to power your power repeater

| Number of power repeaters | Wattage driver needed | Product (driver) |
|---------------------------|-----------------------|------------------|
| 1                         | 60W                   | LSD6024          |
| 2-3                       | 120W                  | LSD12024         |
| 4-5                       | 150W                  | PSIP15024        |

The products will be powered by power repeaters that require a 24V driver. The table shows you which driver you need for the number of power repeaters you are using. **If you require more than 5 power repeaters you will need another driver.**

In the example we calculated that we need 3 x PR3011. Using the table to the left we can see that we need a 100W driver. This means that you will need to order the following...

# Wiring

## For your colour change products

You may need additional cables to connect your colour change products.

### CR575RGBW

5-core PVC cable

|                       |                             |
|-----------------------|-----------------------------|
| Product code          | CR575RGBW                   |
| Construction material | Copper cable                |
| Cable                 | PVC 5 x 0.75mm <sup>2</sup> |
| Guarantee             | 1 year extended warranty    |

#### Use in conjunction with:

|                   |     |
|-------------------|-----|
| All RGBW products |     |
| JB7               | 322 |

### CF505RGBW

5-core RGBW ribbon cable

|                       |                                     |
|-----------------------|-------------------------------------|
| Product code          | CF505RGBW                           |
| Construction material | Copper cable                        |
| Cable                 | (AWG 24) (5 x 0.25mm <sup>2</sup> ) |
| Guarantee             | 1 year extended warranty            |

#### Use in conjunction with:

|        |     |
|--------|-----|
| PR3011 | 294 |
| PR3002 | 294 |

### LEDRGBWEXT

Colour change extension lead for RGBW products

|                       |  |
|-----------------------|--|
| Product code          | LEDRGBWEXT                             |
| Construction material | Copper cable (PVC)                     |
| Cable                 | 1m (AWG 24) (5 x 0.25mm <sup>2</sup> ) |
| Series                | Series (Plug & Play)                   |
| Guarantee             | 1 year extended warranty               |

#### Use in conjunction with:

|           |     |
|-----------|-----|
| WL070RGBW | 304 |
|-----------|-----|

## Colour Change

RGBW

Coastal protected

IK08 suitable for pathways

### Guarantee

5 years

### Features & benefits

Installation tube available

Low profile for easy installation

Separate white LED for permanent use

Compatible with a large range of controllers

Marine grade stainless steel for use in outdoor and indoor environments

Beam angle: 40°

## GL016RGBW

LED colour change ground light (5W max.)

### Features

|                        |                                  |
|------------------------|----------------------------------|
| IK rating              | IK09                             |
| IP rating              | IP67                             |
| RGB / RGBW             | RGBW                             |
| Walk over / Drive over | Walk over (Stainless Steel Only) |
| Input                  | 350mA                            |
| LED lifetime           | L50 50,000h                      |
| Colour rendering Index | CRI>80                           |
| Colour consistency     | SDCM3                            |

### Installation information

|                             |                       |
|-----------------------------|-----------------------|
| Cut out size (mm)           | 50                    |
| Bathroom zone               | 1                     |
| Construction material       | Stainless steel (316) |
| Suitable for coastal areas  | Yes                   |
| Weight                      | 300g                  |
| Maximum ambient temperature | 35°C                  |
| Electric class (1, 2, 3)    | 3                     |

### Photometrics @ 25°C

| Product code | Finish          | W    | CCT           | Beam angle | lm | lm/W | Energy |
|--------------|-----------------|------|---------------|------------|----|------|--------|
| GL016RGBW    | Stainless steel | 1.2W | White (4000K) | 40°        | 50 | 42   |        |
|              |                 | 1W   | Red           | 40°        | 38 | 38   |        |
|              |                 | 1.2W | Green         | 40°        | 63 | 53   |        |
|              |                 | 1.2W | Blue          | 40°        | 11 | 9    |        |

Energy rating is a reflection of the LED light source.

### Wiring information

|                         |   |
|-------------------------|---|
| Cable / flying lead     | 2x 1m CR575RGBW (outside diameter: 7.4mm) |
| Type of wiring required | Series                                    |

### Control & LED drivers

See pages 290-293 for complete control and LED driver offer

### Accessories

## GL090RGBW

High output LED colour change ground light (12W max.)

### Features

|                        |                                  |
|------------------------|----------------------------------|
| IK rating              | IK08                             |
| IP rating              | IP67                             |
| RGB / RGBW             | RGBW                             |
| Walk over / Drive over | Walk over (Stainless Steel Only) |
| Input                  | 350mA                            |
| LED lifetime           | L50 50,000h                      |
| Colour rendering Index | CRI>80                           |

### Installation information

|                             |                       |
|-----------------------------|-----------------------|
| Cut out size (mm)           | 70                    |
| Bathroom zone               | 1                     |
| Construction material       | Stainless steel (316) |
| Suitable for coastal areas  | Yes                   |
| Weight                      | 900g                  |
| Maximum ambient temperature | 35°C                  |
| Electric class (1, 2, 3)    | 3                     |

### Photometrics @ 25°C

| Product code | Finish          | W  | CCT           | ∠°  | lm  | lm/W | Energy |
|--------------|-----------------|----|---------------|-----|-----|------|--------|
| GL090RGBW    | Stainless steel | 3W | White (4000K) | 45° | 177 | 59   |        |
|              |                 | 2W | Red           | 45° | 106 | 53   |        |
|              |                 | 3W | Green         | 45° | 185 | 62   |        |
|              |                 | 3W | Blue          | 45° | 43  | 14   |        |

Energy rating is a reflection of the LED light source.

### Wiring information

|                         |   |
|-------------------------|---|
| Cable / flying lead     | 2x 1m CR575RGBW (outside diameter: 7.4mm) |

## Colour Change

RGBW

IP68 suitable for full submersion into water

Suitable for coastal C5 and high acid and alkali environment

## Guarantee

5 years

## Features & benefits

316 Stainless steel housing and titanium cover provides outstanding corrosion resistance

Clear but strong 8mm tempered glass cover provides high efficiency and clear colour accuracy

TRIAC mains dimmable as standard with RGBW option

Pre-wired with 5 metres of cable to aid the installer

To be installed under water to prevent over-heating

1 1/2" BSP thread enables installation onto fabricated pipework

24V version available

## Beam angle: 35°

## Colour Change

RGBW

Coastal protected

IP67 ideal for outdoor areas and under water lighting

### Guarantee

5 years

### Features & benefits

Complete with wall fixings for easy installation

Can rotate and be angled to direct light

Separate white LED for permanent use

Compatible with a large range of controllers

Marine grade stainless steel for use in outdoor and indoor environments

Beam angle: 40°

## UL010RGBW

Colour change LED light (5W max.)

## Colour Change

RGBW

Coastal protected

IP67 ideal for outdoor areas and under water lighting

### Guarantee

5 years

### Features & benefits

Complete with wall fixings for easy installation

Can rotate and be angled to direct light

Separate white LED for permanent use

Compatible with a large range of controllers

Marine grade stainless steel for use in outdoor and indoor environments

### Beam angle: 45°

## Colour Change

RGBW

IP67 for complete protection against ingress of dust & water

IK10 for protection against high impact

### Guarantee

5 years

### Features & benefits

Suitable for coastal applications

Tilt angle of luminaire is adjustable, just turn knob to tilt the light distribution up to 25 degrees

Static loading capacity is 2000kg

Pre-wired with 1 meter of cable to aid the installer

TRIAC mains dimmable and DALI-2 dimmable options also available

Supplied with installation tube

Beam angle: 40°

## Tilt RGBW ground light

Driverless, RGBW Colour Change

| GLTXS193RGBW | Stainless steel 316 | Ø193mm cut-out | 9W    | White (3000K) | 40°        | 360 | 28   |        |
|              |                     |                | 7W    | Red           | 40°        | 275 | 33   |        |
|              |                     |                | 9W    | Green         | 40°        | 400 | 37   |        |
|              |                     |                | 9W    | Blue          | 40°        | 150 | 12   |        |
| GLTXS223RGBW | Stainless steel 316 | Ø223mm cut-out | 11.5W | White (3000K) | 40°        | 510 | 28   |        |
|              |                     |                | 9W    | Red           | 40°        | 380 | 39   |        |
|              |                     |                | 11.5W | Green         | 40°        | 560 | 41   |        |
|              |                     |                | 12W   | Blue          | 40°        | 190 | 13   |        |

Energy rating is a reflection of the LED light source.

## Wiring information

|                         |  |
|-------------------------|--|
| Cable / flying lead     | Pre-wired 1.0M H05RN-F, 5x1.0mm <sup>2</sup> |
| Type of wiring required | Series                                       |

## Control & LED drivers

See pages 290-293 for complete control and LED driver offer

## Accessories

|            |                  |                 |     |
|------------|------------------|-----------------|-----|
| JB3 or JB7 | Junction box     | Sold Separately | 322 |
| CR575RGBW  | 5-core PVC cable | Sold Separately | 295 |

## Colour Change

RGBW

IP67 for complete protection against ingress of dust & water

IK10 for protection against high impact

## Guarantee

5 years

## Features & benefits

Suitable for coastal applications

Tilt angle of luminaire is adjustable, just turn knob to tilt the light distribution up to 25 degrees

Static loading capacity is 2000kg

Pre-wired with 1 meter of cable to aid the installer

TRIAC mains dimmable and DALI-2 dimmable options also available

Supplied with installation tube

## Beam angle: 40°

## Colour Change

RGBW

Coastal protected

IP65 ideal  
for outdoor  
environments

### Guarantee

5 years

### Features & benefits

Complete with wall fixings for easy installation

Projects light in two directions

Separate white LED for permanent use

Anodised aluminium for use in outdoor and indoor environments

Compatible with a large range of controllers

Beam angle: 45°

## WL070RGBW

Up / down LED colour change wall light (24W max.)

### Features

|                        |             |
|------------------------|-------------|
| IP rating              | IP65        |
| RGB / RGBW             | RGBW        |
| Tilttable              | No          |
| Rotatable              | No          |
| Dimmable               | No          |
| Input                  | 350mA       |
| LED lifetime           | L50 50,000h |
| Colour rendering Index | CRI>80      |
| Colour consistency     | SDCM3       |

### Installation information

|                             |                    |
|-----------------------------|--------------------|
| Bathroom zone               | 1                  |
| Construction material       | Anodised aluminium |
| Suitable for coastal areas  | Yes                |
| Weight                      | 0.9kg              |
| Maximum ambient temperature | 35°C               |
| Electric class (1, 2, 3)    | 3                  |

### Photometrics @ 25°C

| Product code | Finish | W    | CCT           | Beam angle | Im  | Im/W | Energy |
|--------------|--------|------|---------------|------------|-----|------|--------|
| WL070RGBW    | Silver | 6W   | White (4000K) | 45°        | 200 | 67   |        |
|              |        | 4.0W | Red           | 45°        | 145 | 73   |        |
|              |        | 6.0W | Green         | 45°        | 230 | 77   |        |
|              |        | 6.0W | Blue          | 45°        | 38  | 13   |        |

Energy rating is a reflection of the LED light source.

| CR575RGBW               | 5-core PVC cable                      | Sold Separately | 295 |
| CF505RGBW               | 5-core RGBW ribbon cable              | Sold Separately | 295 |
| LED STRIP PROFILE RANGE | Profile range to house adhesive strip | Sold Separately | 121 |

## Colour Change

RGBW

Ideal for accent lighting with low wattage

IP20 ideal for living room and hallways

## Guarantee

3 years

## Features & benefits

IP20 ideal for living room and hallways

Hard-wearing clear covering

Foil backed flexible PCB dissipates heat (improves LED life and colour stability)

50 LEDs per meter in White and RGBW for an even spread of light

3M self-adhesive backing

Supplied in customised lengths (0.1m up to 4.9m in 100mm increments) 5m reel also available

Compatible with a large range of controllers

Beam angle: 120°

5m/100mm
